

MEADOWBANK MARVELS

This year every year level has had the opportunity to participate in Coding and Robotics with our specialist IT teacher, Anna Taylor. This term the Year 0 and Year 1 students have been identifying signs and symbols and making decisions about where to search for the hidden treasure in Robotics and Coding.

Coding and Robotics

Tottenham Hotspur

This term Year 4 and 5 have been doing a challenge with New Zealand's Healthiest Schools. We have been using our average daily steps to travel around the world and have been completing weekly challenges. As part of the challenge, Meadowbank was selected to host the Tottenham Hotspurs Development Coaches. Some students had a session with them working on their football skills and playing games. In the afternoon the whole school went to the hall for a nutrition session. It was very exciting!

New Entrant Trip

This term the New Entrant children have been learning about life cycles. Last week they visited the Butterfly Exhibition at the Auckland Museum.

Year 5 Rangitoto Hike

On Tuesday Year 5 caught the ferry over to Rangitoto Island. We had an amazing time climbing Rangitoto as part of our inquiry into Volcanoes. We explored the lava caves, which were dark, rocky and a challenge. We were rewarded by the awesome view of Auckland City from the top. A lot of us spotted some native birds and the landscape of Rangitoto was stunning. A great day out!
